The Connecticut Dept. of Economic and Community Development Office of the Arts has joined with Connecticut Sea Grant to enhance their Arts Support Awards Program. Two awards, of up to $1000, will be awarded to an artist or group of artists through this competitive funding program. The winning submission will be selected on the basis of aesthetic quality, relevance to coastal and marine environments and Connecticut Sea Grant themes, as well as its potential impact on non-traditional “audiences”.

**Deadline:** Applications must be received by 4:30 pm on Monday, May 13, 2019.

**Eligibility:** Artists who live in Connecticut, or whose work is related to Connecticut’s coastal and marine environments or Long Island Sound. Note that awardees selected to receive DECD funds must be CT residents.
