

A New Era of Education, Research, Stewardship, and Training on Long Island Sound

**Registration is required along with a \$10.00 participation fee
July 26 9am-3pm**

Marine District Headquarters Old Lyme, CT

July 27th 9am-3pm

Fort Trumbull State Park New London, CT

Join us on the coast of Long Island Sound to explore the estuary! Topics include natural history, field techniques, marine debris, research, resiliency and more, related to middle and high school level NGSS and Ocean Literacy Principles. You will receive free curricular resources, hear from staff at the newly established Connecticut National Estuarine Research Reserve (CT NERR), and spend two days testing hands on investigations with like-minded educators.

**Questions? Contact Long Island Sound Mentor Teacher
